Subject: Sassower wants to contact you

Chris:

Elena Sassower requests you call and contact her

elena@judgewatch.org

914-455-4373

She says our presentation as legitimate candidates on our website is woefully inadequate, no bios, no contact information.

Says it does not look like we are running serious candidates.

Says members of the press could not even set up an interview without contacts, "make these candidates real"

Also has some info and ideas for some very effective campaign points on financial improprieties of the incumbents, she says scandal.

Please be in contact with her, she has some very useful things to contribute.
