Subject: Clarification -- your Feb. 27th response to CJA's Feb 17th FOIL request

This is to request your clarification of the page entitled "2017-18 Judiciary Budget Request: Significant State Operating Fund Changes" that you furnished in response to CJA's February 17th FOIL request.

Am I to understand that this is the one and only record on which the Assembly's "Yellow Book" relied for its assertion that the Judiciary budget for 2017-2018 included a judicial salary increase totaling \$2.4 million?

Who generated the record and, if the Judiciary, was there no coverletter or coversheet indicating when it was transmitted to the Assembly and the circumstances. Was it unaccompanied by any further records of specifics, as for instance, what the \$2.4 million represented as far as a percentage and/or dollar increase for each judge. Was there no certification, or even identification of the official cost-of-living source that had been utilized?

Please advise, particularly by such further responsive records.

Thank you.
